- Fast, easy and clean application saving time and money

JACKOBOARD® Canto *Premium*

Angle element for paint and tile applications.

JACKOBOARD® Canto Premium is an angle element specially designed for corners, angles and pipe coverings. The special non-woven coating on both sides of JACKOBOARD® Canto Premium makes it possible to finish with tiles, plaster, paint or wallpaper.

With a core made of extruded polystyrene foam (XPS) and special coating on both sides, JACKOBOARD® Canto Premium is easy to use, water-repellent, stable and suitable for use on nearly all substrates.
